

This is a sample class schedule for the Medical Assisting AAS degree. This sample class schedule is subject to change. The majority of the medical assisting program classes are offered as mixed modality – meaning students may attend a traditional classroom lecture, attend through a virtual platform, or online. Mandatory attendance is required at all labs and ALH 155 and MDA 125 classes.

Program classes are M-TH, although there will be periodic Friday classes for a 4-hour CPR class and the 16-hour Employability Skills Academy (class times vary and are scheduled according to program needs). There is a 180-hour unpaid clinical externship experience which allows students to gain valuable work experience. Students are responsible to locate their externship site.

### SPRING START PROGRAM
